

COMPANY PROFILE 2023

Oil and Gas | Mining | Infrastructure | Trading

BACKGROUND

Ayan Resources Co. Ltd., a limited liability company formed by the joint venture of Horizon Gold Co. Ltd and DOTT SERVICES (SOUTH SUDAN) LIMITED. The Joint Venture seeks to pursue the common desire and interest to venture into the business opportunity in Oil, Gas and Mining sector specifically to be part of increase in enhancement of crude oil production processing from the existing oil fields operated by various consortiums in the Republic of South Sudan, Mining among other services.

Horizon Gold Co. Ltd is a local registered company, a parasternal owned by Ministry of Defense and Veteran Affairs of the Republic of South Sudan and is licensed to carryout multipurpose commercial activities especially in crude oil production processing and Mining among others, in order to enhance the revenue for Government of the Republic of South Sudan

and also use the monies thus generated towards obligations of the Ministry of Defense and Veterans Affairs as requisite.

DOTT SERVICES (SOUTH SUDAN) LIMITED is a local registered company owned by **DOTT SERVICES LIMITED** of Uganda, registered in Uganda and South Sudan respectively with its headquarters in Kampala, Uganda with other branches worldwide.

DOTT SERVICES LIMITED has competed in the Construction industry across Uganda, India, Tanzania, DRC, South Sudan, etc.; for over 28 years with diverse experience in delivering quality infrastructure projects across the countries; awarded contracts by various government agencies, non-governmental organizations, and private clients.

BACKGROUND

BACKGROUND

With the combined expertise, experience, and resources of DOTT SERVICES (SOUTH SUDAN) LIMITED and Horizon Gold Co. Ltd, ARCO is well-positioned to become a notable leader in the energy and mining sectors. Fueled by a commitment towards excellence, operational efficiency, and ethical business practices, ARCO will not only bring abundance and progress to South Sudan's natural resources but also act as a driving force for economic growth and job creation within the region.

OBJECTIVE

ARCO's primary objective is to collaborate in the exploration, production, and enhancement of crude oil, processing, Transporting as well as engage in various mining activities. The company seeks to utilize its expertise, resources, and technical capabilities to contribute to the growth of South Sudan's oil and mining industries, thereby generating revenue for the government and supporting the obligations of the Ministry of Defence and Veterans Affairs.

VISION

ARCO envisions becoming a leading player in the oil, gas, and mining sectors of South Sudan. By leveraging the combined strengths of its parent companies, financial strength net network the joint venture seeks to achieve excellence in operations, adhere to high ethical standards, and make significant contributions to the economic development and welfare of the country.

MISSION

At ARCO, our mission is to contribute to the sustainable growth and development of the oil, gas, and mining sectors in South Sudan. We strive to be a trusted partner, leveraging our technical expertise, resources, and collaborative approach to maximize the potential of these industries. By adhering to the highest ethical standards and fostering strong relationships, we aim to create long-term value for our stakeholders, support the government's revenue generation goals, and enhance the well-being of the local communities Where we operate in.

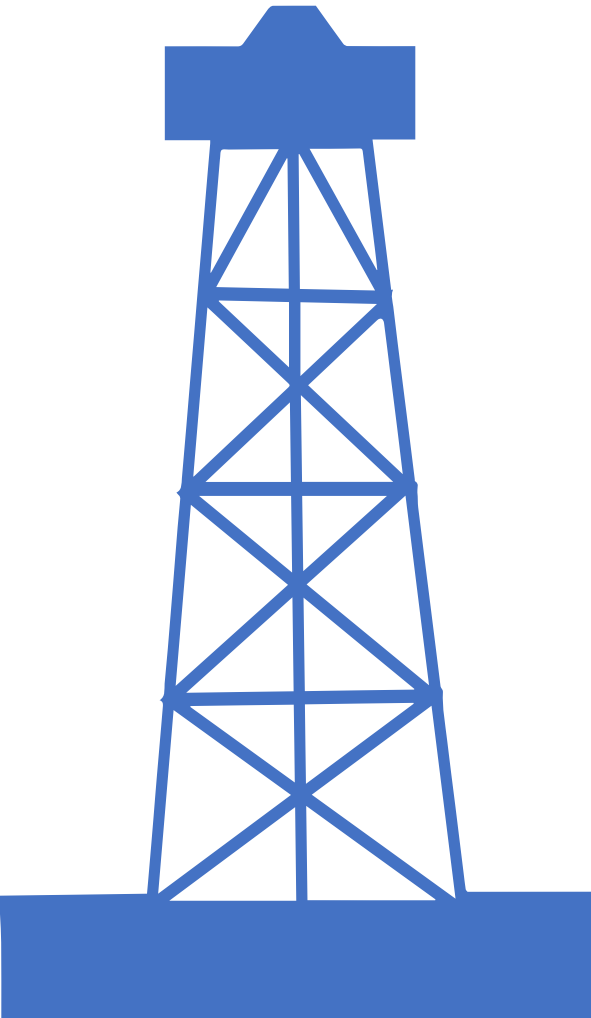

COMPANY OBJECTIVES

- **Enhancing Crude Oil Production:** ARCO aims to contribute to the increase in crude oil production, processing and Transporting from existing oil fields operated by various consortiums in the Republic of South Sudan. Through advanced technologies and efficient operations, the company strives to optimize oil extraction and maximize output.
- **Mining Expansion:** ARCO seeks to expand mining activities in South Sudan. Leveraging its technical expertise and financial capabilities, the company aims to explore and develop mineral resources in an environmentally sustainable manner, while adhering to industry best international practices.
- **Revenue Generation:** ARCO endeavours to generate significant revenue for the Government of the Republic of South Sudan. The funds generated will be utilized to fulfill the obligations of the Ministry of Defence and Veterans' Affairs.
- **Professional Services Provider:** As a professional services provider, ARCO offers comprehensive solutions and expertise in the fields of oil, gas, and mining. The company is committed to delivering high-quality services to its clients and supporting the economic growth of South Sudan.

CORE COMPETENCIES

- **Industry Expertise:** ARCO benefits from the extensive knowledge and experience of its joint venture partners, HGCL and DOTT. The company possesses a deep understanding of the local oil, gas, and mining sectors, enabling it to navigate complex challenges and identify lucrative opportunities.
- **Technical Capabilities:** ARCO leverages advanced technologies, state-of-the-art equipment, and skilled professionals to enhance operational efficiency and maximize resource extraction. The company is committed to implementing sustainable practices to protect the environment.
- **Financial Strength:** With the support of its joint venture partners, ARCO possesses significant financial resources to invest in infrastructure development, exploration, and production activities. This financial stability allows the company to pursue ambitious projects and capitalize on growth opportunities.
- **Collaborative Approach:** ARCO believes in building strong partnerships with government entities, industry stakeholders, and local communities. By fostering mutually beneficial relationships, the company aims to create sustainable value and contribute to the social and economic development of South Sudan.

CORE VALUES

Integrity: ARCO upholds the highest standards of integrity in all its business dealings, ensuring transparency, honesty, and accountability.

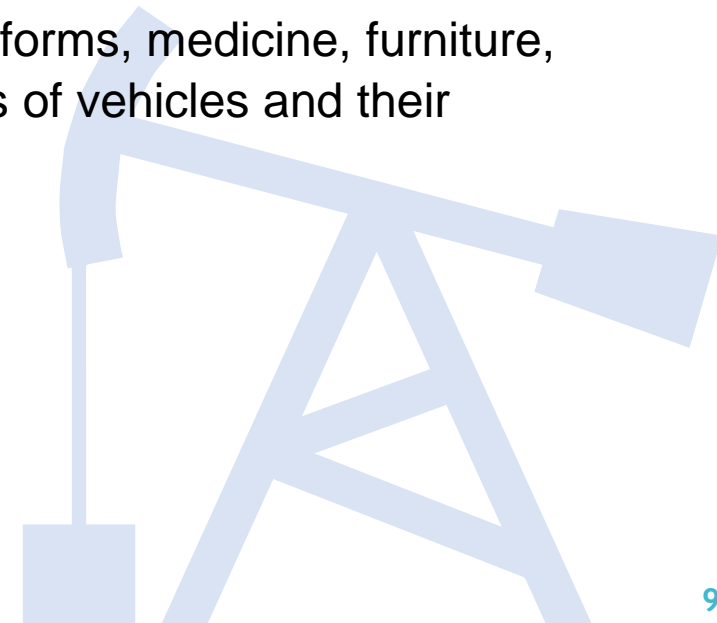

Collaboration: The company values collaboration and teamwork, fostering strong partnerships with stakeholders, consortiums, and local communities to drive sustainable growth.

Safety: ARCO prioritizes the safety and well-being of its employees, contractors, and communities. The company adheres to strict safety protocols and promotes a culture of safety at all levels.

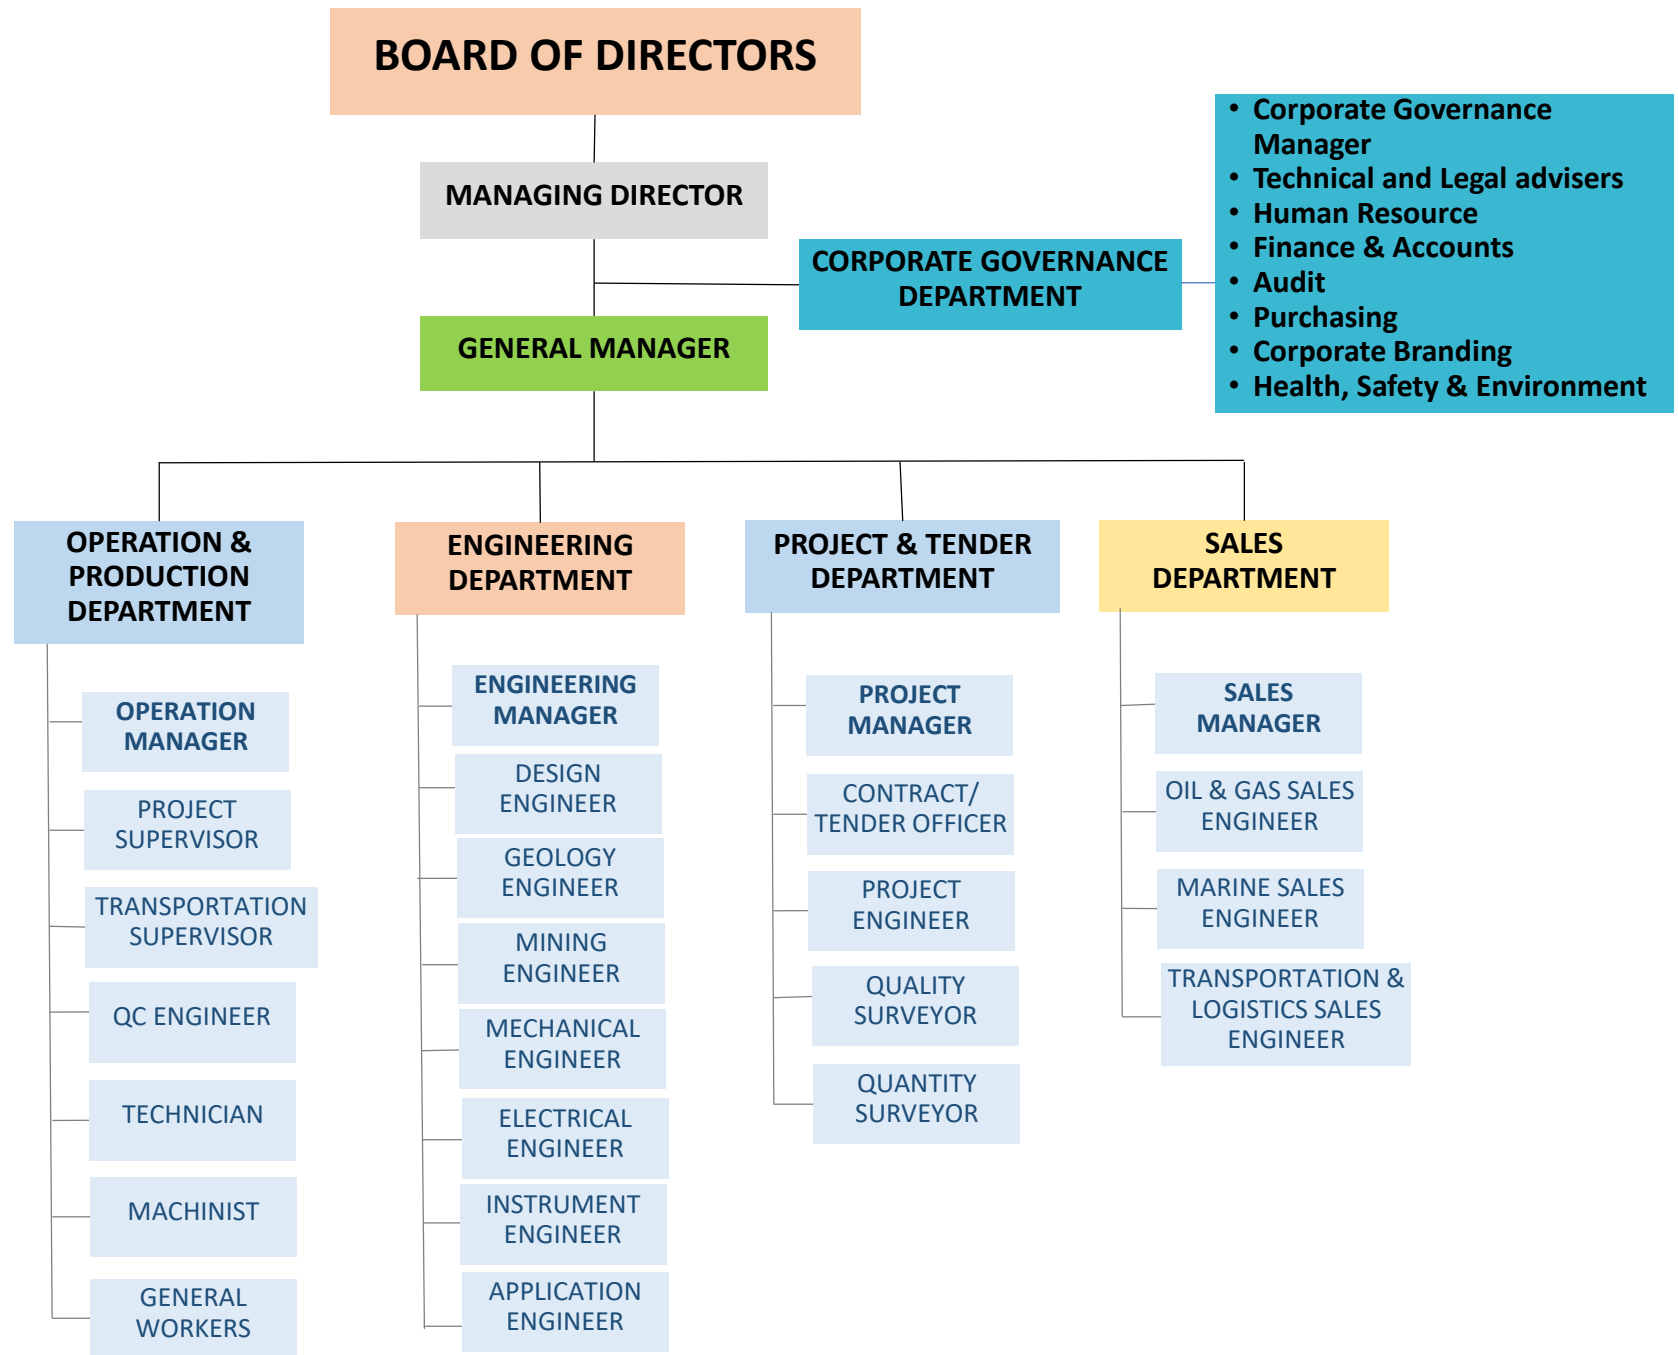

Environmental Stewardship: ARCO is committed to minimizing its environmental impact and follows sustainable practices to protect and preserve South Sudan's natural resources.

OUR SERVICES

1. Oil and Gas.
2. Mining.
3. Infrastructure Projects (Roads, Bridges, Hydropower Dams, Irrigation Schemes, Buildings, Transmission and Distribution Power Lines, Water & Sewerage, Information & Communication Technologies and Optical Fiber)
4. Trading.
5. Supply of fuel, assorted food ration and dry food, uniforms, medicine, furniture, stationeries and other office equipment, and all types of vehicles and their spare parts.
6. Transportation Services.
7. Agriculture farms.
8. Forestry.

Leading the way . . .

BACKGROUND

- DOTT SERVICES was established in Uganda in 1994 by a group of four Engineers and classmates who decided to pursue their careers in Uganda after their graduation from the University. They started small but have grown their investments to the tune of over 200M USD.
- The Company has over the years been famed for providing reliable, quality and timely completion of huge Infrastructure Projects in different Engineering disciplines that include among others Roads, Bridges, Hydropower Dams, Irrigation Schemes, Buildings, Transmission and Distribution Power Lines, Water & Sewerage and Mining Projects across the world. The Company has unique experience in Hydro-mechanical and Electro-mechanical works where we have installed electrical panels, transformers, switch gear, gates and steel pipes rolling, testing and commissioning within the Hydropower Projects.

BACKGROUND

BACKGROUND

- DOTT SERVICES LTD is among the few indigenous companies in the Country, with demonstrable capacity and proven record of accomplishments to the satisfaction of their clients.
- In spite of the several challenges typical to operating in a developing country i.e. accessibility of Finance, Cost of funds and opportunities for business; DOTT SERVICES LTD has created “value into the economy” by creating competition, defend against possible monopoly and increase local investment.
- The Company has permanent staff of 1,052 people and 5,623 temporary staff.

BACKGROUND

- As an infrastructure company, it has built demonstrable capacity over the years geared towards providing comprehensive engineering solutions to infrastructure development in the country and adding more value to the industry and to the economy. This is done by integrating the resources, built in terms of workshop facilities, quarries/crushing capacity and capacity in all specialized services, geared towards building a strong engineering (design & build) teams for delivering competent quality services.
- Current Order Book of the company is approx. 550 Million USD

KIBP (KAMPALA INDUSTRIAL BUSINESS PARK)

Lagan DOTT Namanwe Limited to spearhead \$250M Namanwe Industrial and Business Park at Namanwe, KAMPALA.

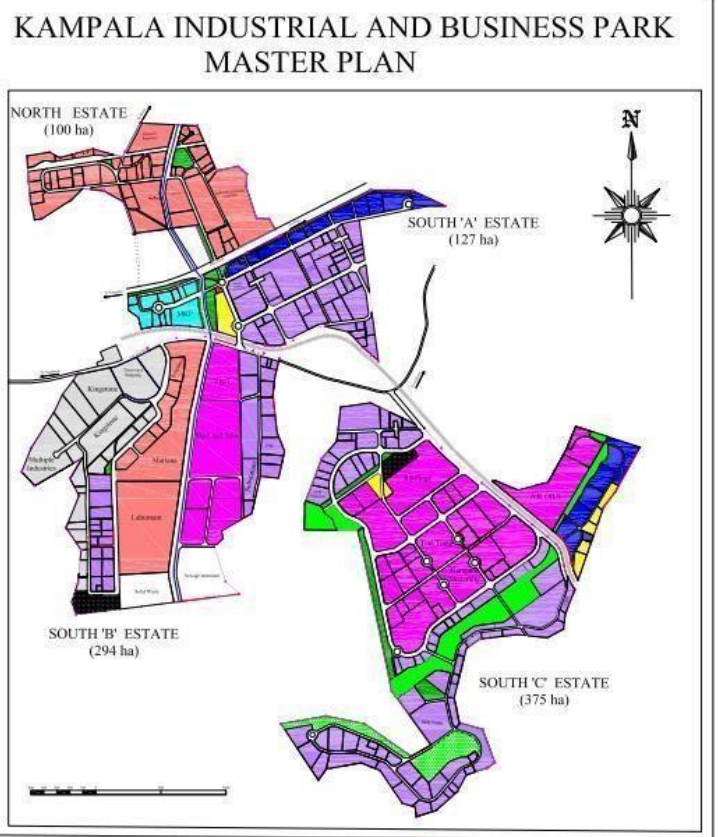

A joint venture established between UK contractors Lagan Group Limited and Local Ugandan contractor DOTT SERVICES LIMITED to develop the infrastructure for the Kampala Industrial Business Park. The Joint Venture brings together the international standards and experience with local knowledge and expertise to develop a world class infrastructure for the Governments of Uganda.

Joint Venture involvement in the project will ensure that a high-quality industrial park will be built to help promote and grow the Ugandan economy for the benefit of all population.

The park is the largest in Uganda and has been in operation hosting a number of significant businesses including Coca-Cola however the industrial park is currently suffering with poor infrastructure especially road network. The Government recognizes that the development of the park will attract investors, promote employment and benefit the country as a whole.

It is therefore seen as a key government priority for sustained industrial development and growth. The development of the park will encourage employment and the project team will work to ensure skills transfer through out construction period which is envisaged to be 48 months.

The infrastructure development across the park include upgrading gravel roads to tarmac, water supply, sewerage network, solid waste holding facility and waste treatment, 33KV power network, street lighting, IT and telecoms.

DOTT SERVICES LIMITED - TANZANIA

BACKGROUND

- DOTT SERVICES LIMITED – TANZANIA was established in 2006 and is a wholly owned subsidiary of the company DOTT SERVICES LIMITED – UGANDA.
- We are a dynamic and forward-thinking construction company with a proven track record of delivering high-quality projects on time and within budget. Our team is made up of experienced professionals who are passionate about their work and dedicated to providing exceptional service to our clients.
- Our services include project management, design and build, and general contracting for a variety of constructing types, especially highways and roadway construction. Our portfolio showcases a range of projects that demonstrate our expertise, including multi kilometre roads even characterised with high complexities in execution.
- Our dedicated team of professionals work closely with clients to deliver high-quality, cost-effective, and sustainable road construction projects.

DOTT SERVICES LIMITED - TANZANIA

BACKGROUND

- DOTT SERVICES LIMITED – TANZANIA has executed over 250km of road projects in Tanzania since 2006; involving rehabilitation and upgrading to bituminous and double bituminous standards. The value of works done in Tanzania since inception is about USD 180 Million.
- Our main goal is to continuously exceed our clients' expectations and to build lasting relationships based on trust and mutual satisfaction.
- At DOTT SERVICES LIMITED, we use the latest technology and equipment to ensure that every project we undertake is completed efficiently and to the highest standards. Our team works closely with clients to ensure that every aspect of their project is tailored to meet their specific needs and requirements. We completely understand the importance of meeting deadlines, staying within budget, and delivering projects that exceed our clients' expectations and are fully committed to providing the same to our clients.

THE STRUCTURE

FINANCIAL CAPABILITY

The company has experienced steady growth since its inception as demonstrated in the financial statements over the years. Shareholders always preferred to invest into construction plant and equipment and other infrastructure that enhance the productivity and quality of the product delivery.

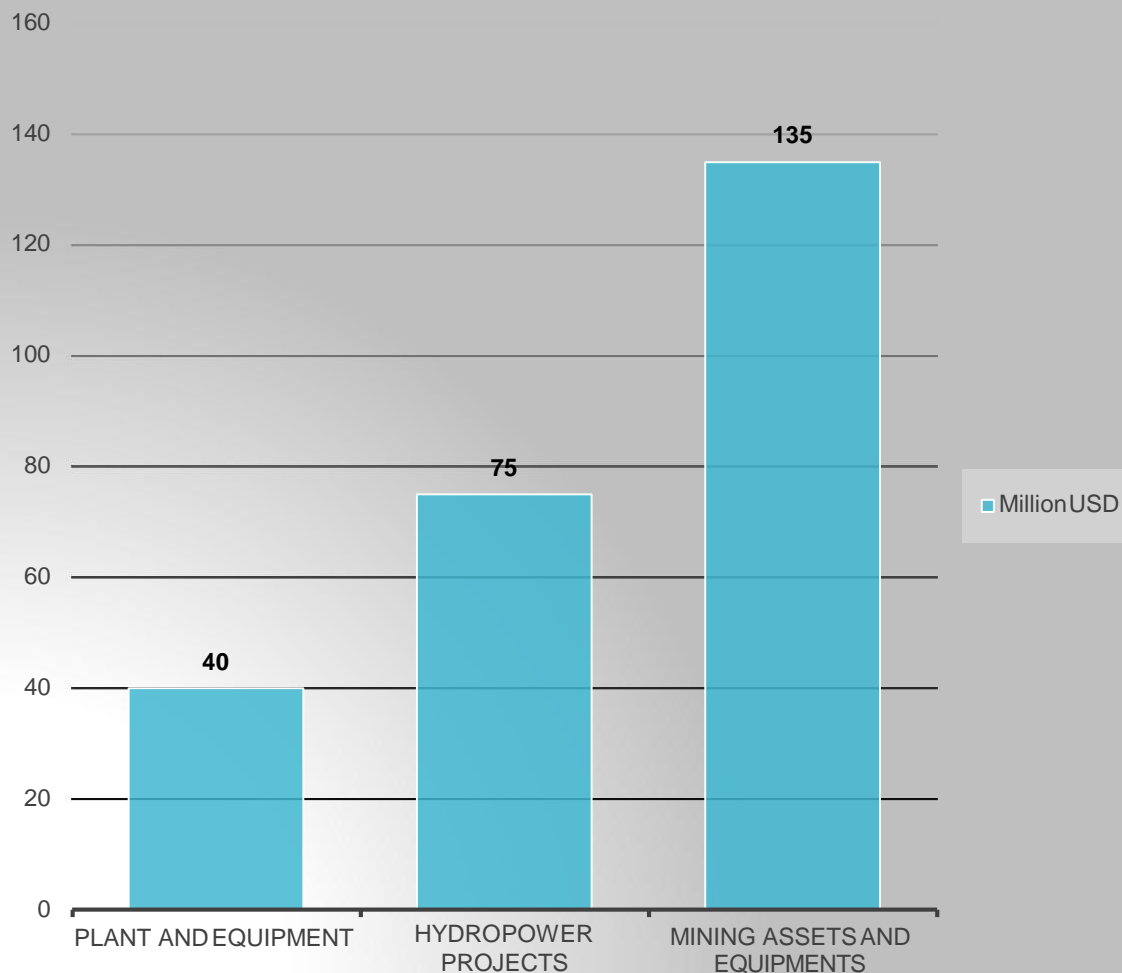

The Company has a robust team of experts in the finance and accounts department headed by a Finance Director who is extensively exposed and experienced in the construction industry. The financial affairs are well managed with strict compliance to the statutory requirements and good industrial practices.

The accounting policies adopted in the preparation of financial reports have been applied consistently by all entities in the Group. The financial statements of entities are maintained in accordance with IFRS accounting principles and are adjusted where necessary to comply with the significant accounting policies of the Consolidated entity.

In addition to several internal audits carried out on all segments of the company, it always engages reputable external auditors to check the books of accounts and carryout extensive Audit before releasing the financial statements each year.

PROCUREMENT STRATEGY

- The procurement strategy of the company is based on value for money with quality, competence and timely delivery to the Client.
- The procurement strategy is also based on the project finance and the requirements of the financier.
- The company's supply chain has a world wide footprint with solid long term and proven business types with both manufacturers and suppliers of goods, equipment and manpower to suit the requirements of the Company

SYSTEMS & COMPLIANCE

- DOTT SERVICES LIMITED emerged as the best ranked Construction Company under the Contractor Registration and Classification System (CRSC) carried out jointly by the Ministry of Works and Transport (MoWT) in collaboration the Public Procurement and Disposal of Public Assets Authority (PPDA) in Uganda in 2019. Classification exercise was carried by PWC whereas technical and financial support was given by DFID.
- In recognition of the importance of quality management system, Environment Management System and Health and Safety Management System, DOTT SERVICES LIMITED is accredited with;
 - ISO 9001:2015
 - ISO 14001:2015
 - ISO 45001:2018

ENVIRONMENT, HEALTH & SAFETY

DOTT SERVICES LIMITED complies and monitors both National and International Standards in respect to Health, Environment and Safety on all its projects. We also ensure to monitor progress by carrying out various audits annually and also have experience in management of Environment & Social Impact Assessments and Monitoring Plans in line with IFC standards.

The company has worked with many reputable International service providers in providing E&S services.

CORPORATE SOCIAL RESPONSIBILITY

(UGANDA)

- Through these establishments DOTT SERVICES LTD has created direct and indirect employment to the local population. We trained and nurtured competent Ugandan Engineers and other technical staff who have since become a backbone of our operations not only in the country but abroad. We have also provided free and clean drinking water to the families surrounding areas where we have our establishments like quarries, we have also worked on power supply and good roads those have been brought near to the local communities like in Semuto, Kachumbale, and Buseruka.
- While Buseruka Hydropower was being developed, we constructed the escarpment road from Buseruka trading centre to Kaiso-tonya landing site. Before the construction of Kaiso-Tonya road, this access was made through escarpments and provided a lifeline not only to the community living on the shores of the lake Albert but was extensively used by oil exploring company when they are drilling waraga 01.
- Actively participated in the afforestation program in conjunction with Hoima district and CSWCT. And in these entire establishments and in all our construction projects, it has been DOTT SERVICES LTD's cardinal principle that all the construction sites security is manned by Veterans from Uganda people's defence force-starting with the implementation of Kafu-Masindi Road Project way back in 2004, to this day.
- Where we have been called upon in case of disaster and emergency by Government of Uganda, DOTT SERVICES LTD has always been readily available-even when Government did not advance any funds, we are ardent "Partners for a Cause"; using our resources to fix the problems before we are paid. And some of the Projects were never paid; for example, building a temporary NTUNGWA bridge when the old bridge collapsed; and emergency removal of floating island damaging the Water Works at AWOJA BRIDGE, etc. We continue to support Nation growth because we belong here.
